

FAST Solution Focused Area Service Trucks

MOBILITY:

Our growing staff of proven field service personnel are available 24/7 to support your National Oilwell Varco Top Drive, Iron Roughneck, Electronic Drilling System (EDS), NOV line of Shaffer™ and T3™ Ram and Spherical BOPs, Power Systems, and AMPHION™ Control System. The Focused Area Service Trucks (FAST) are strategically stationed at several sites throughout the United States so our knowledgeable field service technicians can quickly deploy to your operating site and resolve your equipment issues.

COMMITMENT:

NOV is committed to ensuring your operation runs smoothly and at optimum performance. This commitment led to the establishment of the FAST Solution with highly skilled NOV technicians ready to repair your NOV Top Drive, Iron Roughneck, EDS, NOV line of Shaffer and T3 Ram and Spherical BOPs, Power Systems, and AMPHION Control System. Quick deployment of service personnel and parts inventory of commonly used spare parts help increase rig uptime. These service trucks are pre-loaded with an extensive list replacement parts, filters, consumables, and tools to get your NOV equipment running at OEM specifications.

CUSTOMER SERVICE:

Because we understand downtime translates into lost revenue, NOV is taking customer service and product support to the next level. We are where you are and designed this solution to service your NOV Top Drive, Iron Roughneck, EDS, NOV line of Shaffer and T3 Ram and Spherical BOPs, Power Systems, and AMPHION Control System at your location and with increased speed. NOV is constantly developing new technologies and services to better serve your needs, ensuring NOV continues to be the premier source for diversified products and services.

AFTERMARKET SERVICES:

National Oilwell Varco provides comprehensive aftermarket product and service solutions to support the lifetime of your equipment through an integrated network of strategically located facilities. One phone call to an NOV technical support center initiates a technical support team to troubleshoot and resolve your equipment issues.

FEATURES AND BENEFITS:

- Rugged mobile service trucks stationed in your area with 24/7 on-call technicians
- Pre-stocked with hundreds of NOV Top Drive, Iron Roughneck, EDS, NOV line of Shaffer and T3 Ram and Spherical BOP, Power System, and AMPHION Control System replacement parts, filters, and consumables
- Expert on-call technicians ready to provide FAST, onsite service and repair
- Reduced downtime for services, repair, and replacement/spare parts
