

Service Exchange Munchers

Less downtime and process disruption with fast and responsive service.

Do you have a Muncher installed that requires servicing?

As an existing user of **Series A, SB or EZstrip™ TR Munchers**, a competitively priced service exchange unit can offer you an alternative to buying a new Muncher or stripping down the unit to replace parts. With replacement Munchers delivered to your site before old units are removed, minimum process disruption is ensured with minimum downtime. Users of the Service Exchange program for Munchers can expect an on-site unit exchange in just one day. Backed by a fully-dedicated aftermarket team, we have the perfect solution to providing continuous grinding of solids.

Exchange This

For This

Service Exchange Benefits

- Shorter lead times
- Competitively priced
- Same day replacement
- Genuine OEM parts
- 12 months warranty
- Reduced operator health and safety risks
- Significantly reduced on-site man hours
