

# Tector and Tector Plus

## Tector™

MSI Pipe Protection Technologies' Tector provides efficient thread protection by preventing environmental and impact damage. Available in several design options, Tector is easy-to-use and lightweight providing exceptional value for the level of protection.

As an economical option to heavier thread protection, Tector's defense against common industry occurrences ensures basic protection needs are met, making it a perfect fit for storage or light transportation.

## Tector Plus™

Since 2000, the Tector Plus has been widely recognized as a market leading thread protector in Canada for its long-standing reputation in reliability. Tector Plus offers many of the same benefits as Tector with a slightly thicker level of plastic protection offering additional value in the Canadian regions.
