

Portable Power

Canada

Technicians Are Available 24/7

NOV Portable Power has a team of highly qualified mechanics and electricians. Technicians are available 24 hours a day, 7 days a week. Our services include: job surveys, commissioning & decommissioning, troubleshooting, trucking, and service maintenance.

Skid Mounted and Trailer Generators

NOV Portable Power provides diesel and natural gas generators that quietly supply power to any job site. Our models range in size from 20Kw to 1,500Kw with voltage from 120/208, 480 or 600. Our oilfied skid generator packages are walk-in, sound attenuated, with interior lighting and have electrical distribution to meet your site requirements. The walk-in enclosures provide spill containment and protection from the harsh elements.

Fuel Tanks

Environmentally secure double wall fuel tanks are available for your on-site diesel storage. Tanks range in size from 2,500 - 50,000 litres.

Electrical Distribution

Electrical distribution can be customized for your site specific requirements ranging from a simple stand-alone pedestal to a 20ft. enclosure with a 2,000 Amp automatic transfer switch, transformers and multiple breakers / disconnects to meet your application.

Light Towers

Diesel powered light towers quietly supplies light to any job site. All units are built to withstand the harshest environments and employs heavy duty stainless steel components. Standard features include hydraulic towers, forklift pockets, circuit breakers and trailer mounted. Models come in 8kw or 20kw.

National Oilwell Varco (NOV) is committed to conducting our business in a manner that safeguards our employees, customers, community neighbors, suppliers and the environment in which we operate.

NOV (Varco Canada ULC) is accredited through COR – Certificate of Recognition, ComplyWorks® and ISNetworld®.
